

Ensure Accurate Measurements

Maintain precise and drift-free readings with our advanced flow cell and UV254 probe.

Engineered for reliability, these instruments provide consistent and accurate water quality data, essential for optimal performance and compliance in various applications.

Benefits

Fast, Accurate Results

- Focus spray nozzle for thorough cleaning
- Rigorous cleaning ensures more accurate measurements

Operational Efficiencies

- Minimizes maintenance requirements
- Customizable cleaning duration and intervals from 1 to 24 hours

Ease of Installation

- Easily mounted to the wall
- Push-fit tubing connectors for quick and simple setup

Gain Complete Control

- Check valve to prevent reverse flow
- Pressure switch cut-off for enhanced safety

Water Supply	Fed from mains via 18 Litre tank with ballcock
Max Pressure	87 psi, 6 bar
Control Relay	on/off
Pump Enclosure Size	270 x 278 x 150 mm
Warranty	2 years (UV254 probe 12 months)
Conformity EMC	EN61 326

Conformity Safety	EN61010
Temperature Range	1 - 60 °C
Max Flow Rate	5 litres per minute
Connectors	10 mm tubing
Accessories	Options Available
Power	230/110 V AC
